**Reliant Real Estate Management Acquires The REMM Group**

*New owners to expand multifamily management portfolio and strengthen commercial business*

**Anaheim, Calif., February 10, 2014** — Reliant Real Estate Management today announced that it has acquired Orange County, Calif.-based The REMM Group. The asset/property management company will continue to operate as The REMM Group and retain the majority of its employees. The company services more than nine million square feet in commercial and 19 multifamily properties. Additionally, The REMM Group, using the industry leading software Yardi, provides accounting services to institutional and privately held management companies.

The REMM Group is the recipient of the 2013 Accredited Management Organization of the Year award by the Institute of Real Estate Management for Orange County (IREM-OC). The company specializes in real estate management, property management accounting services, brokerage guidance and consulting services.

Sara D’Elia is president and CEO of The REMM Group. Prior to the acquisition, she was president of another highly profitable real estate management firm, Mesa Management. At Mesa, she increased the company’s active property management portfolio units by 86 percent.

The remaining two partners are 30-year REMM Group veteran Christine Dales, who will serve as COO, and CFO Shawn Conerty, formerly the CFO of Mesa Management.

“It’s exciting to come back to my roots, the REMM Group, where I started in property management 25 years ago,” said D’Elia. “I’m especially excited about working again with Christine and The REMM Group team, alongside my six-year CFO Shawn Conerty.”

The first objective of the new owners will be to strengthen the commercial portfolio and add on the existing multifamily portfolio developed by D’Elia’s team at Mesa Management. This new platform will allow REMM to offer management services for all property types including office, retail, industrial and residential.

“I couldn’t have left the company in better hands,” said The REMM Group Founder Robert M. Taylor. “My long association with Sara and Christine over the years makes me confident that they, along with an already strong team, will take the company to new heights of success.”

**About The REMM Group**

The REMM Group is a woman-owned business headquartered in Orange County, Calif. The company specializes in real estate management for commercial and multiunit family properties. The REMM Group is a member of The Accredited Management Organization, The Institute of Real Estate Management, International Council of Shopping Centers, and Building Owners and Managers Association.
